Re: Approved Special Education School Program Review Final Report
Nashoba Learning Group, Inc.

Dear Ms. Steers:

Enclosed is the Department of Elementary and Secondary Education (DESE) Approved Special Education School Program Review Final Report containing findings based on the onsite visit conducted in your program.

This report includes detailed findings describing the determinations of DESE about the implementation status of each requirement. Please note that all requirements were found to be fully implemented; therefore, your program does not need to develop a corrective action plan.

At this time, DESE requests that you send to us a separate statement signed by you and the Chairperson of your Board of Directors which describes the steps the program is taking to make the findings of DESE available to staff, parent groups and the general public. Please go into the Web-based Monitoring System (WBMS) and upload your program's statement that has been signed by you and the chairperson of your Board of Directors into Additional Documents. You can do this by accessing:
> CPR/Program Review > Self-Assessment > Additional Documents.

The approval certificate enclosed with this correspondence shall remain in effect until August 31, 2025, and will be contingent upon continued compliance with all regulations contained within 603 CMR 28.00 "Special Education Regulations," 603 CMR 18.00 "Program And Safety Standards For Approved Public Or Private Day And Residential Special Education School Programs," and 603 CMR 46.00 "Prevention of Physical Restraint and Requirements If Used." DESE may change this approval status at any point during this three-year period if circumstances arise that warrant such a change.

Please be advised that the attached DESE Approval Certificate must be conspicuously posted in a public place within the program as required by 603 CMR 28.09.

DESE will notify you of your program's next regularly scheduled Mid-Cycle Review several months before it is to occur. At this time, we anticipate the next routine monitoring visit to occur sometime during the 2024-2025 school year, unless DESE determines that there is some reason to schedule this visit earlier.

In closing, we would like to extend our thanks to the administration and staff who shared their time and thoughts so generously during the preparation and onsite phases of the visit. Should you require any additional information, please do not hesitate to contact the Onsite Team Chairperson.

Sincerely,

Helen Murgida, Program Review Chairperson

MASSACHUSETTS DEPARTMENT OF ELEMENTARY AND SECONDARY EDUCATION

APPROVED SPECIAL EDUCATION SCHOOL PROGRAM REVIEW REPORT

OVERVIEW OF REVIEW PROCEDURES

INTRODUCTION

The Massachusetts Department of Elementary and Secondary Education (“Department”) is required under M.G.L. c. 71B, §10 to review special education programs in approved special education schools that serve publicly funded students under the provisions of Board of Elementary and Secondary Education Regulations 603 CMR 18.00, 28.09 and 46.00. Each year, the Department's Office of Approved Special Education Schools (OASES) conducts onsite visits to selected approved special education school programs to verify the implementation of these programs. The schools selected for the 2021-2022 review cycle were notified in February 2021 of the scheduled visits and were required to conduct a Self-Assessment using the Department's web-based monitoring system (WBMS) before the arrival of the Department's visiting team.

The statewide six-year Approved Special Education School Program Review cycle together with the Department's Mid-cycle monitoring schedule is posted on the Department's web site at <http://www.doe.mass.edu/oases/ps-cpr/6yrcycle.html>.

Approved Special Education School Program Review Elements

Criteria: The Program Review criteria encompass key elements drawn from 603 CMR 18.00, 28.09, 46.00 and the approved special education school program's application for approval. They also include those required by the federal Office for Special Education Programs (OSEP) and revised requirements of the Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 *et seq.* (IDEA-2004) as described in the Department's Special Education Advisories. Through the Desk Review the OASES chairperson examines the Self-Assessment submission and determines which criteria will be followed up on through onsite verification activities. The Self-Assessment and Desk Review are both described below.

Self-Assessment Phase: This is a requirement for all agencies being monitored. It is completed in the year prior to the onsite review and covers all of the monitoring criteria. The agency is responsible for completing the Self-Assessment for each individually approved program being reviewed, which consists of:

- Agency review of documentation for required elements including document uploads.
- Agency review of a sample of student records selected.
- Agency review of a sample of staff records selected.

Upon completion of these portions of the Self-Assessment, it is submitted to the Department for review.

Desk Review Phase: The OASES chairperson assigned to each agency reviews the responses by the approved special education school regarding the critical elements for appropriate policies, procedures, and practices, as well as actual documents and data submissions in each criterion. The student record review data, staff record review data, and explanatory comments are also examined. The outcome of this review, along with 3-year trend data from the Problem Resolution System, restraint reports, restraint injuries,

Template Version 220526

serious incidents and notification or prior approval from the Department through a Form 1 to the Department is used to determine the scope and nature of the Department's onsite activities.

Onsite Verification Phase:

This includes activities selected from the following:

- Interviews of administrative, instructional, and other staff consistent with those criteria selected for verification.
- Interviews of parent representatives and other telephone interviews as requested by other parents or members of the general public.
- Review of student records and staff records: The Department selects a sample of student and staff records from those the agency reviewed as part of its self-assessment to verify the accuracy of the data. The Department also conducts an independent review of a sample of student and staff records that reflect activities conducted since the beginning of the school year. The DESE monitoring team will conduct this review using standard Department procedures, to determine whether procedural and programmatic requirements have been implemented.
- Observation of classrooms and other facilities: The team observes a sample of classrooms and other school facilities used in the delivery of programs and services to determine general levels of compliance with program requirements.

Team: Depending upon the scope of follow-up activities that have been identified based on the Department's Desk Review of the agency's Self-Assessment, a two to three member Department team will conduct a two to five day Program Review.

Draft Report of Comments: A Draft Report of Comments is based on a review of the written documentation regarding the operation of the school's programs and the information gathered from the Onsite Verification Phase. A Draft Report of Comments is issued via the WBMS. Agencies may respond to the factual accuracy of the report within 10 business days.

Final Report: A Final Report is then issued via the WBMS and in hard copy. The Final Report includes findings organized under 16 specified compliance areas listed in the table of contents. The findings explain the "ratings," or determinations by the team about the implementation status of the compliance criteria reviewed within each of these areas. The ratings indicate those criteria that were found by the OASES monitoring team to be "Implemented," "Implementation in Progress," "Partially Implemented," or "Not Implemented."

Response: The approved special education school program must propose to the Department corrective action to bring those areas into compliance with the required statute or regulation. In some instances the team may have found certain requirements to be fully "Implemented" but made a specific comment on the school program's implementation methods that also may require response from the approved special education school program. **Under federal *Special Education State Performance Plan* requirements pursuant to IDEA-2004, public and approved special education school programs serving disabled students must demonstrate effective resolution of noncompliance identified by the Department as soon as possible but in no case later than one year from the issuance of the Department's Final Program Review Report.**

REPORT INTRODUCTION

A two-member team conducted a visit to Nashoba Learning Group Inc during the week of February 28, 2022 to evaluate the implementation of selected compliance criteria under the Massachusetts Board of Elementary and Secondary Education Regulations 603 CMR 18.00 (Program and Safety Standards for Approved Public or Private Day and Residential Special Education School Programs) and 603 CMR 28.09 (Approval of Public or Private Day and Residential Special Education School Programs), 603 CMR 46.00 (Prevention of Physical Restraint and Requirements If Used), M.G.L c. 71B, the federal Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 *et seq*, as amended in 2004 (IDEA--2004), and civil rights provisions that are pertinent to Approved Special Education School Programs. The team appreciated the opportunity to interview staff, to observe classroom facilities, and to review the program efforts underway.

The Department is submitting the following Approved Special Education School Program Review Report containing findings made pursuant to this onsite visit. In preparing this report the team reviewed extensive documentation regarding the operation of the school programs, together with information gathered by means of the following Department program review methods:

- Interviews of 3 administrative staff;
- Interviews of 4 clinical staff;
- Interviews of 3 teaching and educational support services staff;
- Student record review: A sample of four Massachusetts student records was selected by the Department. Student records were first examined by the school program's staff and then verified by the OASES monitoring team using standard Department student record review procedures to make determinations regarding the implementation of procedural and programmatic requirements. An additional number of randomly selected student records were also reviewed by the OASES monitoring team to ensure determinations regarding the implementation of procedural and programmatic requirements remain in effect.
- Staff record review: A sample of four staff records was selected by the Department. Staff records were first examined by the school program's staff and then verified by the OASES monitoring team using standard Department staff record review procedures to make determinations regarding the implementation of procedural and programmatic requirements. An additional number of randomly selected staff records were also reviewed by the OASES monitoring team staff to ensure determinations regarding the implementation of procedural and programmatic requirements remain in effect.
- Observation of classrooms and other facilities: A sample of instructional classrooms and other facilities used in the delivery of programs and services was observed to determine general levels of compliance with program requirements.

The report includes findings organized under 16 specified compliance areas listed in the table of contents. The findings explain the "ratings," or determinations by the team about the implementation status of the compliance criteria reviewed within each of these areas. The ratings indicate those criteria that were found by the team to be "Implemented," "Implementation in Progress," "Partially Implemented," or "Not Implemented". The approved special education school program must propose to the Department corrective action to bring those areas into compliance with the controlling statute or regulation. In some instances the team may have found certain requirements to be fully "Implemented" but made a specific comment on the school program's implementation methods that also may require response from the approved school program.

The approved special education school program is expected to incorporate the corrective action into any program improvement plans, including the school program's professional and paraprofessional staff development plans.

FOR THE RATING OF EACH COMPLIANCE CRITERION

Implemented	The requirement or criterion is substantially met.
Implementation in Progress	This rating is used for criteria containing new or updated legal requirements and means that the agency has implemented any old requirements contained in the criterion and is training staff or beginning to implement the new requirements in such a way that the onsite team anticipates that the new requirements will be implemented by the end of the school year.
Partially Implemented	The requirement, in one or several important aspects, is not entirely met.
Not Implemented	The requirement is totally or substantially not met.
Not Applicable or Not Rated	The requirement does not apply to the approved special education school program.
