

Signing up for Nashoba Learning Group Text Message Alerts and Notifications

NLG uses RAVE Mobile Alerts to send text message and email alerts to notify subscribers of program closing, delayed opening, early release, and other emergency notifications.

A self-serve web portal allows you to manage which programs you will receive notifications from. To register for notifications you must first create an account, register your mobile number, and opt-in to the notification lists you wish to join.

Notification lists are named using the *Program Type: Short address* format such as “School Program Alert: 10 Oak Park, Bedford”.

You can subscribe to one or more notification lists and unsubscribe from any of the lists at any time.

NOTE: You will not receive text or email notifications unless you create an account and opt-in to one or more notification lists.

NLG cannot set up an account on your behalf or modify your account settings. You are responsible for setting up your account and opting in or out of the notification lists.
